

CONTAINS AZOXYSTROBIN, THE ACTIVE INGREDIENT USED IN HERITAGE®

# AZOXY 50 WDG SELECT™

FUNGICIDE

## *Broad-Spectrum, Long Term Protection*

**Azoxy 50 WDG Select** is a systemic fungicide, designed to achieve control of some of the toughest turf diseases, such as brown patch, fairy ring, leaf spot and yellow patch. Total protection is achieved through a combination of foliar and root absorption. Highly systemic and with a higher than average degree of root uptake, Azoxy 50 WDG Select provides continuous protection to the whole plant for up to 28 days.

- Defends against both soilborne and foliar diseases
- Provides continuous protection for up to 28 days
- Complete root-to-leaf distribution
- Constant delivery for even distribution to new growth
- Greater degree of root uptake when compared to other strobilurins
- Prevents spore germination, thereby preventing many fungal infections
- May be used during over-seeding of dormant turfgrass

### ACTIVE INGREDIENT

Azoxystrobin

### % ACTIVE INGREDIENT

50%

### FORMULATION

Water-Dispersable  
Granular

### CHEMICAL FAMILY

Strobilurin/QoI inhibitors

### BRAND ALTERNATIVE

Heritage® 50WDG

### MODE OF ACTION

Acropetal Penetrant

### RESTRICTED USE

None

### SIGNAL WORD

Caution

### PACKAGING INFORMATION

6 x 1 lb

2 x 6 lb

IMPORTANT:  
ALWAYS READ AND FOLLOW  
LABEL INSTRUCTIONS.

  
**PRIME SOURCE**

# AZOXY 50 WDG SELECT™

FUNGICIDE

## **Application Directions:**

**Azoxy 50 WDG Select** may be applied as a foliar spray, in alternating spray programs, or in tank mixes with other registered pesticides. Azoxy 50 WDG Select is compatible with many commonly used fungicides, liquid fertilizers, herbicides, insecticides, and biological control products. If tank mixes are desired, observe all directions, precautions, and limitations on labeling of the most restrictive product label used.

Azoxy 50 WDG Select can be used for control of certain pathogens causing foliar, stem, and root diseases including leaf and stem blights, leaf spots, patch diseases, mildew, molds and rusts of turfgrass plants. Use Azoxy 50 WDG Select to control certain diseases on golf courses, lawns and landscape areas around residential, institutional, public, commercial, and industrial buildings, parks, recreational areas and athletic fields.

Azoxy 50 WDG Select is most effective when applied prior to disease development. Mix Azoxy 50 WDG Select with the required amount of water and apply as a dilute spray application in 2-4 gallons of water per 1,000 square feet (87-174 gallons per acre). Repeat applications at specified intervals for as long as required. For spot treatments, use 0.2 oz. Azoxy 50 WDG Select per 1 to 2 gallons of water. Do not apply more than 10 lbs. product/acre/year (3.7 oz. product/1,000 square feet/year). Make applications by ground only.
