For the removal of large roundworms, hookworms and tapeworms in puppies and small dogs, weighing 6 to 25 lbs., administer these tablets according to the weight of the animal.

Note:
For large dogs weighing more than 25 lbs., use D-Worm™ Combo Broad Spectrum De-Wormer Flavored Chewable Tablets for Large Dogs. D-Worm™ Chewables are recommended for dogs 12 weeks of age and older.

Offer the proper dosage by hand or in the dog's food container, with or without food. Do not withhold food from your dog prior to or after treatment.

Consult your veterinarian for assistance in the diagnosis, treatment and control of parasitism.

PRECAUTION:
The safety of D-Worm™ Combo in breeding dogs and pregnant bitches has not been determined.

In case of ingestion by humans, contact a physician immediately. Physicians may contact a Poison Control Center for advice concerning cases of ingestion by humans.

NOT FOR HUMAN CONSUMPTION

D-Worm™ COMBO
(pyrantel pamoate/praziquantel)
Broad Spectrum De-Wormer

D-Worm™ Combo Flavored Chewables
Package contents: Blisters of 2 or 12 chewables

**DRUG FACTS**

**Active Ingredients (in each chewable):**

Pyrantel Pamoate (30 mg) and Praziquantel (30 mg)

**Purpose:** De-wormer for Small Dogs and Puppies Only (6.0 to 25 pounds)

**Uses:** For the treatment and control of

- Roundworms (*Toxocara canis, Toxascaris leonina*)
- Hookworms (*Ancylostoma caninum, Ancylostoma braziliense, and Uncinaria stenocephala*)
- Tapeworms (*Dipylidium caninum, Taenia pisiformis*)

**Human Warning:** Keep this and all medication out of the reach of children. To obtain product information, including a Material Safety Data Sheet (MSDS), call 800-234-2269.

**When Using This Product:**

- Consult your veterinarian for assistance in the diagnosis, treatment, and control of parasitism.
- Do not de-worm a dog or puppy that is sick. Consult a veterinarian for diagnosis of the illness.
- D-Worm™ Combo Flavored Chewables are safe for use in puppies 12 weeks or older and adult dogs. Safety in breeding dogs and pregnant bitches has not been tested.

**You May Notice:** Vomiting, loose stools (with or without blood) and decreased activity following treatment. If you notice these signs, contact a veterinarian.

**Directions:** Each flavored chewable contains 30 mg of pyrantel pamoate and 30 mg of praziquantel. The dose for each drug is 2.27 mg per pound of body weight (5 mg/kg). Please refer to the following dosing table for help finding the right dose for your dog.

- You should weigh your dog to make sure you are giving the right dose.
- D-Worm™ Combo Flavored Chewables are palatable if offered by hand. If your dog does not voluntarily eat the chewable, you can hide the chewable in a small amount of food or place it in the back of the dog’s mouth for forced swallowing.
- Make sure that the dog eats the complete dose.
- Watch the dog for a few minutes after dosing to make sure the chewable is not rejected.

Other Information:

**Recommended De-Worming Schedule:** Consult your veterinarian for assistance in the diagnosis, treatment, and control of parasitism. De-worming schedules may vary depending on the climate where you live and the activity of your dog.

**Re-treatment:** Re-treatment of your dog may be necessary as determined by laboratory fecal examination and/or if your dog is living where re-infections are likely to occur. Consult your veterinarian for assistance in the diagnosis and prevention of re-infection. In case of re-infection with tapeworms (*Dipylidium caninum*), consult your veterinarian for advice on how to remove fleas from the dog and the environment.

**Storage:** Store at controlled room temperature of 59-86°F (15-30°C).
