APPLICATION

Hose End Sprayer | Set sprayer to apply 6-8 fl oz. of EcoTreat per 20 gallons of water to cover up to 4,000 sqft. or 1 oz per gallon of water to cover up to 500 sqft. Repeat application after heavy rain, every 30 days, or as needed for best results. When treating for fleas, ticks, ants or mosquitoes, use twice within 7-10 days for best results.

Compression | Indoor application for routine pest control. Mix 4 oz. of EcoTreat per gallon of water. Treats 1,000 sqft.

Fog | Outdoor applications mix 4 oz. EcoTreat per gallon of water. Fog area for mosquitoes up to 5 minutes before activities or as needed to enjoy outdoors.

Misting System | Mix 16-25 fl oz. of EcoTreat to 50 gal of water.

Laundry | Use 2 fl oz. per wash load, along with laundry detergent.

INGREDIENTS

90% Cedarwood Oil, 10% Ethyl Lactate.

CAUTION | AVOID CONTACT WITH EYES. In case of eye contact, flush with water for at least 15 minutes. Do not take internally. After use, wash hands with soap & water. Keep out of reach of children. May cause phytotoxic burn to plant life if applied in temperatures over 90° Fahrenheit. Apply at your own risk.

How It Works

EcoTreat™ is a bio-based alternative to common synthetic pesticides (permethrin & pyrethroids). With EcoTreat & tap water, one concentrate controls hundreds of insects, spiders & venomous snakes. Stronger mixtures enhance results without damaging side effects. Dilution ratios vary by application. EcoTreat can be applied with any applicator. EcoTreat can safely be used inside for routine pest control without danger to pets, people or property. Leaves no stain or residue. NOT FOR INDOOR INFESTATIONS OF FLEAS, TICKS, BED BUGS, or MITES. For indoor infestations, use Wondercide BioDefense®.

MADE FROM SUSTAINABLE, NATURALLY OCCURRING, RENEWABLE RESOURCES.
