

11025

HydroStretch™

**Use in Container Plants,
Hanging Baskets, Flower Beds &
Vegetable Gardens**

- Use with New & Existing Plants
- One Application Works up to 5 Seasons
- Cuts Watering Time up to 1/3
- The Ultimate Soil Amendment for Maximum Water Retention

1 lb Size

UPC Number 7-32221-11025-0

Specially formulated fine particle granules that **absorb and release water over time** to the plant's roots as needed. New Plants - Distribute recommended amount in bottom of the planting hole where plant roots will rest. Mix with soil and water in. Existing Plants - Carefully create holes surrounding plants to depth of roots. Apply granules in holes and cover with soil and water in. Indoor/Outdoor use. **MIX WELL**

APPLICATION RATES

| Container Size | Amount | # Plants Treated |
|----------------|----------|------------------|
| 4" | ½ tbsp | 40 |
| 6" | 1 ½ tbsp | 14 |
