

Mojave 70 EG

Bareground Herbicide

Formulation

70 percent active ingredient,
water dispersible granule

Active Ingredient

Imazapyr, Diuron

Equivalent Brand

Sahara®

Case Pack / Pallet

10 x 5 lb / 24 cases
1 x 25 lb / 40 bags

Application Rates

See label for
specific uses and rates.

Mode of Action

Inhibits activity of ALS enzyme
and disrupts photosynthesis.

Signal Word

Caution

For complete burndown and total bareground control of 150 species of annual and perennial grasses, broadleaf weeds and vines on sites such as railroad, highway right-of-ways, utility sub-stations, petroleum tank facilities, non-agricultural fence rows and more.

- ▶ A single application delivers season-long control of annual and perennial grasses and broadleaf weeds.
- ▶ Provides excellent residual control to prevent new weed emergence all season long.
- ▶ Compatible with other bareground products.
- ▶ Can be used for weed control under paved surfaces.
- ▶ Can be applied either pre- or post-emergence for weed control.

Partial List of Weeds & Vegetation Controlled
