Keep From Freezing.
Shake Well Before Using!

GENERAL INFORMATION

Cleary's DEFOAMER is a water dispersible anti-foaming agent designed for the prevention or suppression of foam formation in spray tank solutions during agitation. It is specially formulated for compatibility with most of the pesticides commonly used for the turf and ornamental industry. Cleary's DEFOAMER is a non-ionic formulation, offering superior uniformity and compatibility in the spray tank.

DIRECTIONS FOR USE

Apply Cleary's DEFOAMER at a rate of one pint (16 fl oz) per 100 gallons of spray volume. This rate may be adjusted depending upon the foaming ability of the materials used in the tank solution.

LIMITED WARRANTY AND DISCLAIMER

CLEARY CHEMICAL CORPORATION warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the risks referred to therein. CLEARY CHEMICAL CORPORATION makes no other expressed or implied warranty of fitness or merchantability or any other expressed or implied warranty. In no case shall CLEARY or seller be liable for consequential, special or indirect damages resulting from the use or handling of this product including, but not limited to, loss of profits, business reputation, or customers, labor costs, or other expenses incurred in planting or harvesting. CLEARY and seller offer this product and the buyer and user accept it subject to the foregoing conditions of sale and warranty which may be varied only by agreement in writing signed by a duly authorized representative of CLEARY CHEMICAL CORPORATION.
