

ORNAMEC®

170 GRASS HERBICIDE

Controls unwanted grasses in landscape beds, groundcovers and other ornamental plantings.

Ornamec® 170 Grass Herbicide is a fluazifop-P-butyl formulation designed especially for the maintenance of landscape beds. Of more than 500 species and varieties of shrubs, wildflowers, trees, flowers and groundcovers listed on the label, over 400 may be treated with Ornamec 170 applied as "over-the-top" applications without risk of plant injury*. Over 200 additional species are listed in three groups according to the risk of the plant injury, with directed application recommended.

Ornamec 170 emphasizes user convenience by pre-blending the surfactant. The 32 fluid ounce size is just right for mixing in most

back-pack sprayers, covering up to 5,000 square feet of ornamental beds, tree wells, fence lines, or other areas where control of unwanted grasses is desired.

Ornamec 170 works best if applied when grasses are young and actively growing. Grass growth stops within 48 hours and death occurs within 1 to 3 weeks.

Ornamec 170 may be used in and around newly-emerging ornamentals and transplants, as well as in established plantings.

Does not control broadleaf weeds, rushes and sedges.

Ornamec® is a registered trademark of PBI-GORDON CORPORATION.

*See label directions for species not to be sprayed over-the-top.

OVER-THE-TOP

- Tremendous labor-saver — eliminates hand-weeding
- Reduces risk of ornamental plant injury
- Requires no additional surfactant
- Selectively controls emerged annual grasses — panicum, goosegrass, crabgrass, foxtail, sandbur and barnyardgrass
- Also controls perennial grasses such as bermudagrass, quackgrass, torpedograss and johnsongrass
- Rain-fast 1 hour after application
- Treated grass ceases growth in as little as 48 hours
- Grass death in 1 to 3 weeks

Contains non-ionic surfactant

RECOMMENDATIONS

Ornamec 170 is recommended for post-emergence control of grass weeds in and around groundcovers, shrubs and trees — in landscape beds, tree wells, along fence lines.

ACTIVE INGREDIENT:
Fluazifop-P-butyl: Butyl(R)-2-[4-[[5-(trifluoromethyl)-2-pyridinyl]oxy]phenoxy]propanoate 1.70%
Other Ingredients 98.30%

*ORNAMEC® 170 contains 0.125 pound (+) isomer (fluazifop-P-butyl) per gallon.

EPA Reg. No. 2217-751

PACKAGING:
12 X 1 quart per case:
shipping weight. 26 lbs.
