Natural GUARD

Protect the planet & your yard

Organic Plant Food 6-2-4

EXTRUDED INDOOR/OUTDOOR SLOW RELEASE PLANT FOOD

A NATURAL CHOICE FOR PLANTS, FLOWERS AND VEGETABLES

With Natural Guard Organic Plant Food 6-2-4, you can enjoy a terrific garden, and we can all enjoy a better planet.

DIRECTIONS FOR USE

Feed Organic Plant Food to outdoor plants and gardens during warm months during the time of microbe activity. In the beginning, feed as needed up to once per month until that time soil nutrients are built up, then amounts may be reduced.

OUTDOOR FLOWER BEDS:

Feed at 1-2 cups per 20 sq. ft.

INDOOR PLANTS:

Feed at 1 tablespoon per month per 1 gallon plant.

MULCH/PLANTING SOIL:

Mix 5 lbs. per wheelbarrow load of compost.

- Natural alternative to synthetic and non-cooked organic fertilizers
- Controlled drying process, increases shelf life
- Reduced odor levels from reduction in bacteria and moisture
- High quality formulation utilizing feed grade organic ingredients
- No sewage sludge/ No manure/No litter

6-2-4
