Evergreen, Flowering Tree & Shrub

CONTINUOUS RELEASE PLANT FOOD

Perennes, flores, árboles y arbustos

FERTILIZANTE DE LIBERACIÓN CONTINUA

Grow strong, gorgeous flowering trees and shrubs with Scotts® Evergreen, Flowering Tree & Shrub Continuous Release Plant Food! This Scotts formula provides continuous release nitrogen feeding for up to 2 months, and will deliver nourishment to all your acid-loving plants to encourage vigorous root growth and lush foliage. And, Scotts® Evergreen, Flowering Tree & Shrub Continuous Release Plant Food is safe - it won't burn your plants when used as directed.

Directions For Use:

Scotts® Evergreen, Flowering Tree & Shrub Continuous Release Plant Food is great for use on all types of acid-loving trees and shrubs including dogwoods, azaleas, evergreens, camellias and rhododendrons. Simply apply the plant food directly from the bag to the soil around all of your acid-loving plants. Be sure to apply plant food to the entire area under the canopy spread of plants (drip zone) or slightly beyond.

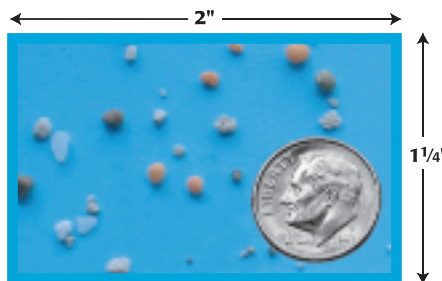

How Much To Use:

Using a dime as a size reference, this illustration shows about how much Scotts® Evergreen, Flowering Tree & Shrub Continuous Release Plant Food you should sprinkle on the soil around your plants.

Apply Scotts® Continuous Release Plant Foods every two months during the growing season starting in Spring. This package provides a single feeding for approximately 165 square feet (15 ft. x 11 ft. area). Apply only as directed.

For Best Results:

- Rake plant food into top 1-3 inches of soil or mulch to allow the nutrients to release directly to the root system.
- Apply plant food evenly around plants. Do not concentrate the plant food near the trunk or crown of plants.
- After application, water in thoroughly to begin the continuous release feeding process.

1 cup (9.5 oz.) covers approximately 35 square feet, or 1/2 tablespoon for every 1 square foot of area

Español - Instrucciones de uso

- Aplique el fertilizante uniformemente en la tierra alrededor de las plantas. Asegúrese de aplicar el fertilizante en toda el área cubierta por la extensión de las ramas de la planta (zona de goteo) o un poco más allá de ésta. Una taza (9.5 onzas) cubre 35 pies cuadrados o 1/2 cucharada por cada área de 1 pie cuadrado.
- Rastree el fertilizante en la capa superior de 1-3 pulgadas de tierra o cubresuelos o mantillo natural.
- Riegue abundantemente después de la aplicación.
- Vuelva a aplicar cada 2 meses durante la temporada de crecimiento.

Garantía de Scotts

Si por cualquier razón usted no está satisfecho con los resultados después de usar este producto, usted tiene derecho a que se le devuelva su dinero. Simplemente envíenos su comprobante de venta y nosotros le enviaremos rápidamente por correo un cheque de reembolso.
