Vision Pro™ HD represents the next generation of **Green Lawnger®** turf colorants defined for use in golf course applications. Unlike other products that leave behind a less appealing blue-tone color, **Vision Pro HD** remains consistently green for the duration of the application period. Use alone or in combination with plant health and conventional plant protection programs on all greens and tees.

Vision Pro HD technology means no adverse effects or breakdown associated with UV light, no plant phytotoxicity, and easy clean-up of spray equipment.

Applications may be applied with professional spray equipment using the existing seals – no seal changes are required.

Directions For Use

Shake Well Before Use.

Suggested Application Rate: Flexibility in usage rate is reserved for the applicator to achieve the custom look desired. Use **Vision Pro HD** alone or in spray mix combinations from 16 to 32 ounces per acre. For optimal appearance, apply biweekly or as often as spray solution applications are made on the greens and tees.

Directions for Use in Tank Mix Combinations

1. Fill sprayer tank one-half to two-thirds the volume of water, and begin agitation.
2. Following the standard order of addition, add **Vision Pro HD** after dry flowable/ dispersible granules and before water-soluble pesticide formulations.
3. Allow **Vision Pro HD** to fully disperse and mix into the spray solution before adding additional pesticides.
4. Add water to reach final solution volume.
5. Apply pesticide solution mix to target site at rate specified by pesticide manufacturer consistent with the product label.

ALWAYS FOLLOW THE PESTICIDE PRODUCT LABEL.

For best results, use low to medium sprayer pressure. Avoid overspray on concrete, masonry, or any other objects where color is not desired, otherwise permanent staining may occur. Accidental overspray should be removed immediately by a water rinse before the colorant dries.

Equipment Cleaning

- After application, always drain and clean the sprayer tank, pump, hoses, valves and nozzles as instructed by the pesticide manufacturer's label.
- Dispose of rinsates as per local, state, and federal regulations.

Use of BASF's **Neutralize™** or **Nutra-Sol®** tank rinsing agents will facilitate pesticide removal and cleaning.

Storage and Disposal

Storage: Segregate from foods and animal feeds. Keep from freezing. Keep away from heat. Protect from direct sunlight. Store in original container only and keep sealed.

Waste Disposal of Substance: Must be disposed of or incinerated in accordance with local regulations.

Container Disposal: Contaminated packaging should be emptied as far as possible and disposed of in the same manner as the substance/product.

Accidental Release Measures: Do not discharge into the subsoil/soil. Do not discharge into drains/surface waters/groundwater. For small amounts: Pick up with suitable absorbent material (e.g. sand, sawdust, general-purpose binder, kieselguhr). For large amounts: Dike spillage, Pump off product. Dispose of absorbed material in accordance with regulations. Collect waste in suitable containers, which can be labeled and sealed. Clean contaminated floors and objects thoroughly with water and detergents, observing environmental regulations.

Conditions of Sale and Warranty

The **Directions For Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer. BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above. **TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER'S EXCLUSIVE REMEDY AND BASF'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.** BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
