SHAKE WELL BEFORE USING

EcoSMART  **BED BUG KILLER**
ORGANIC™ INSECTICIDE **FOR MATTRESSES
& CARPETS**

Now there is an organic insecticide that is **safe to use around children and pets**. EcoSMART™ Organic Bed Bug Killer is made from a patented blend of organic plant oils. It kills bed bugs and their eggs fast without any synthetic toxins or harmful residues. It's safe. It's effective. It's smart. Naturally.

For additional information on protection against bed bugs, go to www.ecosmart.com.

DIRECTIONS FOR USE:

SHAKE WELL BEFORE USING. READ ENTIRE LABEL AND USE ACCORDINGLY.

FOR BEST RESULTS: Vacuum infested room thoroughly including mattress, foundation/box springs and upholstered furniture before using this product. Vacuum the carpet/rugs/flooring, especially where the carpet/flooring meets the wall near the head of the bed. Take vacuum cleaner bag to the outdoor trash immediately.

FOR MATTRESS APPLICATIONS: Remove all bedding and wash in hot water. Remove the mattress and box spring from bed. Hold can 6 inches from mattress and spray across all folds, tufts, seams and edging until damp. Also spray the seams and underside of the box spring. Allow mattress and box springs to dry completely before placing back on bed and putting on bedding. Repeat as necessary.

FOR CARPET/RUG APPLICATIONS: Hold can 2 feet from floor and spray carpet/rug using a smooth back and forth sweeping motion. Focus on areas where bed bugs may hide or rest. Spray entire carpet in room. The critical areas are carpeting/rugs adjacent and under the bed. Spray until damp. Avoid over-wetting or saturating carpets/rugs. Allow carpet/rugs to dry completely and vacuum again. Repeat as necessary.

NOTE: Effective bed bug control typically requires thorough and multiple applications. Visit www.ecosmart.com for more information. This product contains plant oils which are inherently fragrant. For people who are fragrance or plant oil sensitive, test a small application before using over a larger area. While staining is unlikely, as with most household products it is recommended to test for staining on an inconspicuous area of all surfaces to be sprayed before using. Wipe away excess product on furniture immediately after application. To prevent slipping on hard surfaces, wipe away excess product with a damp cloth.

PRECAUTIONARY STATEMENTS: Caution – We recommend good safety practices when using any insecticide, such as avoiding contact with eyes and skin and keeping out of the reach of children. If product gets in eyes, flush with water for at least 15 minutes. If on skin, wash with soap and water. If irritation persists, contact a physician.

PHYSICAL HAZARDS: Contents under pressure. Keep away from heat, sparks and open flames. Do not puncture or incinerate container. Exposure to temperatures above 130° Fahrenheit may cause container to burst.

STORAGE & DISPOSAL: Store in a cool, dry area away from heat or open flame. When container is empty, offer for recycling if available or discard in trash.

LIMITATION OF LIABILITY: To the extent consistent with applicable law, EcoSMART makes no warranties of merchantability or of fitness for a particular purpose, nor any other express or implied warranty except as stated above. Buyer assumes all responsibility for safety and use not in accordance with label, directions and precautionary statements.

EcoSMART represents that this product is a Minimum-Risk pest control product, and qualifies for exemption from EPA registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).
