CAUTION: See back panel for
precautionary statements

Satisfaction

Guaranteed

Net Contents 32 FL OZ
(1 QT, 946 ML)

DIRECTIONS

SHAKE well before using.

Spray dry plants thoroughly with a fine mist every 30 days or as needed. Repellent adheres best and lasts longest when sprayed on dry plants. Allow to dry at least one hour before rainfall or watering. Monitor plants, especially during periods of rapid growth. New leaf, flower and bud growth may be touched up as necessary without worry of burning or over-spraying. Adjust spraying frequency to local conditions for maximum protection.

Dries clear • May be used year round

Good gardening practice states to always wash fruits and vegetables thoroughly before consuming!*

Covers up to 1,000 Sq Ft

I Must Garden takes pride in providing safer alternatives for gardening and pest control. Our all natural products are formulated with food grade ingredients and are safer around
