## Organic & Natural Rose & Flower Plant Food

Fertilizante orgánico y natural para rosales y flores

Our philosophy is simple - caring for your lawn and garden shouldn't be rocket science. So we developed Nature's Care® Plant Foods, which are inspired by the simplicity of nature. Simple instructions. Simple ingredients. Just what your lawn and garden needs to flourish. That's our approach. Now get out there and get dirty!

### What to do

Beauty runs root deep. Nature's Care® Organic & Natural Rose & Flower Plant Food grows stunning in-ground plants, flowers and veggies by naturally supporting their roots. As soon as you mix into soil, our Life Link® Beneficial Microbes go to work; breaking down organic matter so your plants can absorb the nutrients. At the same time, roots are triggered and begin to grow, increasing nutrient uptake and water efficiency. We call that a win-win.

**1**  
Simply Sprinkle  
Simplemente esparza

**2**  
Work Into Top 1/2" of Soil  
Incorpore a los primeros 1.27 cm de la superficie de la tierra

**3**  
Treat Your Plants To Water  
Dé agua a sus plantas

**For Best Results:** Work into the top 1/2" of soil or mulch, then water to start the beautification process.

**Important:** Keep product dry until use.

**Para mejores resultados:** Incorpore a los primeros 1.27 cm de la superficie de la tierra o mantillo y luego riegue bien para activar el proceso de embellecimiento.

**Microbes jump into action and help the most when used at planting time.**

Los microbios entran en acción y ayudan a sacar el mejor provecho al momento de la siembra.

**Bag contains approximately 10 cups**

La bolsa contiene 10 tazas aproximadamente

TYPE OF PLANT / TIPO DE PLANTA	HOW MUCH TO FEED (new plantings) / CUÁNTO FERTILIZAR	AFTER PLANTS ARE ESTABLISHED / CUANDO LAS PLANTAS ESTÁN YA ESTABLECIDAS
ANNUALS & PERENNIALS ANUALES Y PERENNES	4 cups per 20 sq ft (4' x 5') or 4 cups per 20 ft row 4 tazas por cada 1.86 m <sup>2</sup> (122 cm x 152 cm), o por cada 6.10 m de cada hilera	Feed every 6 to 8 weeks Fertilice cada 6 a 8 semanas
ROSES & FLOWERING SHRUBS ROSALES Y ARBUSTOS EN FLORACIÓN	8 cups per 40 sq ft (4' x 10') or 2 cups per plant 8 tazas por cada 3.72 m <sup>2</sup> (122 cm x 305 cm), o dos tazas por planta	At planting or pre-bud break when buds fade & midsummer Al momento de sembrar o antes de que aparezcan los primeros brotes, cuando éstos desaparezcan y a medio verano
CONTAINER PLANTS PLANTAS EN MACETAS	Use 1/2 cup per gallon of soil or 2 Tbsp for small starts Use 1/2 taza por cada galón (3.79 L) de tierra, o 2 cucharadas para germinaciones pequeñas	At planting & every 8 weeks when actively growing Al momento de sembrar y cada 8 semanas cuando las plantas estén creciendo de manera activa

While gardening can be all in good fun, dirt is well... dirty. We like to keep it clean by wearing our trusted gardening gloves when gardening and by washing our hands after.

Si bien la jardinería puede ser divertida, la tierra es... simplemente sucia. Para mantener nuestras manos limpias mientras realizamos tareas de jardinería, debemos usar guantes y lavarlos las manos al finalizar.

If you're making this a family affair, kids need grown up supervision. Si hace de la jardinería una actividad familiar, recuerde que los niños necesitan la supervisión de un adulto.

Nature's Care® Organic & Natural Rose & Flower Plant Food 3-4-1

GUARANTEED ANALYSIS	F1144
Total Nitrogen (N) .....	3%
3.0% Water Insoluble Nitrogen*
