## Making the most of EveryDrop™!

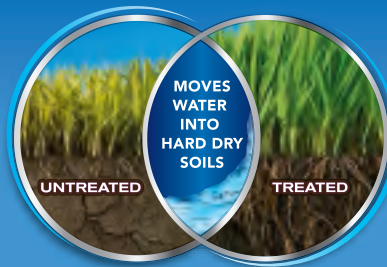

Here at Scotts, we understand it can be a challenge to maintain your lawn and garden when facing heat, drought and watering restrictions. Now you can **make the most of available water** with Scotts® EveryDrop™, an innovative product **designed to move water into the soil.**

For over 50 years, professional turf grass managers have used wetting agent technology to help move water through hard, dry soils to more efficiently **manage water** and **turf performance.** Now Scotts is bringing this technology to the home, for use in any outdoor space.

## WHAT IS EVERYDROP™?

EveryDrop is a unique formula of wetting agents designed to help move water into the soil, consistently and evenly. This helps to reduce wasteful runoff and pooling. Whether relying on rain, sprinklers or hoses, EveryDrop helps make the most of available water.

Enhanced depiction to illustrate untreated versus treated turf soil.

### HOW TO USE EVERYDROP™:

To help prepare soils for the stresses of summer, start applying EveryDrop in late spring before the typical summer heat and drought begin. Continue applying monthly during summer into the fall. Results can vary due to soil type, weather and other variables. For best results apply EveryDrop monthly, each application lasts for 4 weeks.

**Best results are seen during drought/stressed conditions.**

Well-fed lawns and plants are more efficient at using available water. For optimal results, feed your lawn and plants with Scotts® and Miracle-Gro® products.

#### HOW TO APPLY: CÓMO APLICAR:

Spray bottle covers 2,500 sq ft (about half a basketball court). Bottle empties in about 10 minutes.  
La botella rociadora cubre 186 metros cuadrados. (alrededor de media cancha de baloncesto).  
La botella se vacía en unos 10 minutos.

- 1 Connect sprayer to garden hose. Turn on water.** Conecte el rociador a la manguera de jardín. Abra la llave del agua.
- 2 To begin spraying, point nozzle in the direction you want to spray. Bend small plastic tab on side of sprayer and turn knob clockwise to ON position.** Para empezar a rociar, dirija la boquilla en la dirección en la que quiera rociar. Doble la pequeña lengüeta de plástico ubicada al costado del rociador hacia atrás y gire la perilla en dirección de las manecillas del reloj hasta la posición de "ON" (abierto).
- 3 Spray evenly over measured area.** Rocíe de manera uniforme sobre el área ya medida.
- 4 To stop spraying, bend small plastic tab back and turn knob counter clockwise to OFF position. Turn water off.** Para dejar de rociar, doble la pequeña lengüeta de plástico hacia atrás y gire la perilla en dirección contraria a las manecillas del reloj hasta la posición de "OFF" (cerrado). Cierre la llave del agua.
- 5 Relieve water pressure by bending plastic tab back and turning knob to ON position until water slows to a drip. Then, turn knob back to OFF position.** Libere la presión del agua doblando la pequeña lengüeta de plástico hacia atrás y girando la perilla a la posición de "ON" (abierto), hasta que el chorro del agua se reduzca a un goteo. Luego gire la perilla de regreso a la posición de "OFF" (cerrado).
- 6 Disconnect sprayer from hose.** Desconecte el rociador de la manguera.
- 7 If applied to edibles, wash before consuming.** Si se aplica a plantas de frutas o verduras, lave éstas antes de consumirlas.

#### SCOTT'S COMMITMENT TO TESTING

In third-party field testing in NJ, creeping bentgrass planted in loamy soil maintained an acceptable visual turf quality and color even late in the summer when deprived of evapotranspiration (ET) replacement. The technology in EveryDrop™ reduces the surface tension between the water and the soil making it easier for water and oxygen to reach grass roots. A treated turf efficiently absorbs the water more quickly and evenly to help retain moisture in soil and reduce the rate of wasteful runoff.

**First Aid and Storage Information**  
**Primeros auxilios e información de almacenamiento**

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION:** Eye contact with contents may cause irritation.  
Flush eyes with water as soon as possible after contact.

**MANTENER FUERA DEL ALCANCE DE LOS NIÑOS**

**PRECAUCIÓN:** El contacto del contenido con los ojos puede causar irritación.  
Enjuague los ojos con agua tan pronto como sea posible después del contacto.

**STORAGE:** Store in original container, out of reach of children.

**ALMACENAMIENTO:** Almacene el producto en su envase original,  
fuera del alcance de los niños.
