

# Carpenter Bee Prevention Guide

## How To Keep Carpenter Bees Away

By DoMyOwn staff

### STEP 1 Perform Regular Treatment Applications

#### Video Instructions

<https://www.youtube.com/watch?v=K81JeFjnxU>

Preventing carpenter bees in areas where carpenter bees are known to be active is not always possible. By performing general [preventative insecticide spray applications](#) you can prevent most carpenter bees from drilling new holes. It is important to start your monthly preventative spray applications in early spring and continue one time per month through early fall.

Please see our [General Pest Prevention Guide](#) to learn more about general exterior sanitation and preventive spray applications to prevent pest infestations.
