

# Daddi Long Legs®

S P E C I F I C A T I O N S

<b>WHERE TO USE</b>	Rooftops and other open areas, A.C. units, streetlights
<b>TARGET BIRD</b>	Gull, pigeon or larger
<b>BIRD PRESSURE</b>	Light - Medium
<b>MATERIAL</b>	Stainless Steel and Delrin Plastic
<b>INSTALLATION</b>	Delrin base is screwed to surface, glue-on bases available
<b>INSTALLATION LEVEL</b>	Easy
<b>PATENTS</b>	5,343,651 and 5,452,536

Used with a boat base, Daddi Long Legs can be removed while the boat is in use.

A sea of Daddi Long Legs are installed to keep birds off this metal roof.

Keeping birds off these street lights is simple with two 4-foot Daddi Long Legs.

## easy to install

The Delrin (plastic) base can be screwed into most surfaces and comes with a 1/4" adhesive neoprene gasket. A PVC base adapter is available for glue-on applications. When placed together in groups, overlap the tips 4 - 6 inches.

## how it works

Thin, stainless steel rods rotate in the breeze and wave menacingly, interfering with birds' wings as they attempt to land.

## removable

The center spindle can be easily separated from the base to access the area its protecting.

## hard to see

The Daddi Long Legs is inconspicuous from short distances and practically invisible from afar. Its unobtrusive design allows for use in even high visibility areas like shopping/walking promenades and parking lots.

## humane

The waving rods have plastic tips to prevent injury to birds or humans.

## mounting Daddi Long Legs

### Boat Railing Mount

When birds consider your boat's railing a perfect perch, attach a Daddi Long Legs with our boat railing mount.

### Boat Base: This Lexan adapter attaches to the Daddi Long Legs base. It attaches to your boat with a bungee cord or rope.

### Sandbag Base: The weighted sandbag base can be used in areas where the standard boat base is not appropriate.

PVC Base: When drilling is not an option, Daddi Long Legs can be attached to the PVC glue-on base adapter
