FOR

ORGANIC GARDENING

**Promotes Plant Vigor**

All Natural • From Glauconite

Provides Potash

NET WEIGHT 7.5 LBS. (3.40 kg)

This product has been approved for organic gardening by a USDA Accredited Certifying Agent.

# ORGANIC®

**DIRECTIONS: 1lb. = 1 1/3 cups**  
We recommend wearing gardening gloves when feeding your plants.

**INSTRUCCIONES: 1 libra = 1 1/3 tazas**  
Recomendamos utilizar guantes de jardinería cuando lo aplique a sus plantas.

**Application Rates:**

*Light Application:* 5 lbs. per 100 square feet.

*Medium Application:* 10 lbs. per 100 square feet.

*Heavy Application:* 30 lbs. per 100 square feet.

Spread Espoma Greensand evenly over the entire area. It is recommended that the Greensand be incorporated into the soil before seeding or planting. For applications during the growing season use the light recommended rates above.

*For Individual Plants:* Mix 1/3 cup into the soil.

**ABOUT ESPOMA GREENSAND:**

**Espoma Greensand** is the highest quality, all natural, non-burning, purest Greensand obtainable. Espoma Greensand is mined from natural deposits of glauconite. These deposits are of marine origin and are composed primarily of iron-potassium silicate, which gives it its bluish-green color. Potassium is an essential nutrient needed by all plant life. Other valuable properties of Espoma Greensand are its ability to loosen clay soils, bind sandy soils, and increase the water-holding capacity of all soils. It is an exceptional soil conditioner for flower beds, gardens and lawns. Use Espoma Greensand with the confidence that you have chosen the very best. Espoma - the most trusted name in organics since 1929.

**ABOUT OUR COMPANY:**

Since 1929 The Espoma Company has been the pioneer in natural gardening solutions. While much has changed throughout the years, the core philosophy that has guided four generations of family ownership has remained the same - develop the highest quality, most effective natural and organic gardening products possible. Whether it's our plant foods, lawn foods, controls, or potting mixes, Espoma products work in harmony with nature to grow beautiful lawns & gardens.

**Tasas de aplicación:**

*Aplicación ligera:* 5 libras (2,3 kg) por cada 100 pies cuadrados (9,3 m2).

*Aplicación mediana:* 10 libras (4,5 kg) por 100 pies cuadrados (9,3 m2)

*Aplicación pesada:* 30 libras por 100 pies cuadrados.

Esparcir Espoma Greensand equitativamente sobre toda el área. Se recomienda que Greensand sea incorporado en la tierra antes de sembrar o plantar. Para aplicaciones durante la temporada de cultivo use las medidas ligeras recomendadas arriba.

*Para plantas individuales:* Mezcle 1/3 taza dentro de la tierra.

**NET WEIGHT 7.5 LBS. (3.40 kg)**
