

FOAM FRESH™

TRIPLE ACTION FOAM FRESH

1.

When you spray Foam Fresh onto a surface, the foaming action immediately encapsulates odor-causing molecules, reducing offensive odors.

2.

The offensive odor is replaced by the bold fresh scent of Foam Fresh. This fresh scent is most powerful when first sprayed, then it dissipates to a gentle fragrance.

3.

Finally, Foam Fresh attacks the organic matter that is the cause of the odor. Seven strains of microbes begin consuming the organic matter, and the microbes will double in population every 20 minutes until their food source is consumed.

THE MOST POWERFUL

BIO-REMEDIAL ODOR CONTROL FOAM

IS NOW AVAILABLE – SO SPRAY AWAY

We are called to fix some pretty nasty problems, and lots of those situations also have significant odors. Now you can eliminate organic-based odors and organic buildup. Simply spray Foam Fresh directly onto the source of the odor and watch it go to work. The foam encapsulates the odor molecules, then its seven strains of microbes go to work consuming the organic matter. Use Foam Fresh to break down gunk in kitchens, garbage receptacles, floor drains and sink drains. You can also use Foam Fresh to eliminate odors like urine, vomit and feces.

KITCHEN SINK

Your sink and garbage disposal collect minute food particles that over time can create odors. Use Foam Fresh to eliminate the odor and consume organic food particles in sinks and drains.

MOWER ODORS

Grass will ferment under your mower, creating an offensive odor in your garage every week. Spray under your mower each week to keep the garage or shed smelling great.

FRESHEN AUTO AIR

Heating and air systems on cars and trucks get musty and smelly. Simply spray Foam Fresh along the vent in front of the windshield. Foam Fresh's 7 strains of microbes will go to work consuming organic materials that cause musty odors and will keep your car smelling fresh.

ENTRY RUGS

The entry rugs in your home stop all the dirt and grime from entering into your home. But those rugs still hold all the dirt, grime and other materials that sneak in on your feet. Foam Fresh will consume the organic grime and leave your home smelling clean and fresh.

SMOKE ODORS

Smoky odor from fireplaces can permeate the entire house. Go straight to the source and spray Foam Fresh in the fireplace every time you clean. Foam Fresh is tough on smoke odors, leaving you with a fresh, clean scent.

Spray Foam Fresh on return air vents to keep the whole house smelling fresh.

FRESH VENTS

RECYCLE BINS

Recycling is a wonderful way to promote sustainable living, but recycling bins can be a sweet, sticky mess. Just hit the bins with Foam Fresh every time they are emptied. Foam Fresh helps keep bins clean and smelling fresh.

DISH WASHER

Keep your dishwasher smelling fresh. Simply spray the inside of the dishwasher once per month and then run through a cycle. Foam Fresh will clean the inside of your dishwasher and eliminate gunk build-up in your drain.

GARBAGE RECEPTACLES

Garbage cans represent a consistent problem area. Keep this area clean by spraying Foam Fresh into the can, under the lid and on the ground around the can where any garbage may have spilled. Foam Fresh goes to work by first encapsulating the odor and then consuming the organic build-up.

Foam Fresh can be sold directly to consumers and is a great for recycling bins, drain odors and pet messes.

CARPET ODORS

Urine, vomit, feces & pet odors – carpets can take a beating. Count on Foam Fresh to break down the organic matter and eliminate the odor.

SPORTS BAGS

Sweaty clothes and shoes in a closed bag for three days...what could go wrong? Don't let sports bags stink up your home or cars. Spray them with Foam Fresh and you'll not only replace the sweaty smell with a fresh new scent, but also Foam Fresh will actually consume the organic matter that is causing the smell.

REST ROOMS

Foam Fresh will not only eliminate odor from urine and feces but will actually consume the organic matter causing the odor. Don't let bathroom odors plague your home. Use Foam Fresh.

TRASH RECEPTACLES

Trash receptacles are a constant source of odor in many kitchens. Food waste and spills can cling to waste containers causing offensive odors. Foam Fresh makes quick work of trash can odors with its powerful fresh scent .

ATHLETIC EQUIPMENT

Soccer shin guards, football shoulder pads, hockey gear...when kids play sports, gear gets stinky. Simply spray equipment after each practice and game to keep equipment clean and fresh.

FRESHEN FLOOR MATS

Floor mats in cars are constantly exposed to moisture and dirt and that creates odors on the mats and in your car. Foam Fresh to the rescue. Spray Foam Fresh on the mats in the evening and the next morning you get into a car that smells fresh and clean.

PET BEDS

Keep pet bedding fresh
and clean with a quick
spray of Foam Fresh.

Foam Fresh's microbial
action works to consume
organic matter left
behind by pets daily use.

MOPS

Mops are a constant source of odor. When the mopping is finished, spray Fresh Foam all over the entire mop. This will eliminate that sour odor and break down the small food debris left in the mop.
