PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Harmful if swallowed. Avoid contact with skin, eyes or clothing. Causes moderate eye irritation. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear long-sleeved shirt, long pants, socks, shoes and gloves. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PRECAUTIONS AND RESTRICTIONS:

- Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until sprays have dried.
- Do not apply this product through any type of irrigation system.
- Use only lawn sprayer that delivers coarse spray droplets. Do not apply as a fine mist because of potential for injury to desirable plants.
- Do not exceed specified dosages for any area.
- Do not spray carpetgrass, dichondra, or lawn where desirable clovers are present. Do not apply this product to "Floratam" St. Augustinegrass in Florida.
- Do not use this product on or near desirable plants, including contact or spray on exposed root systems or adventitious shoots within the drip line of desirable trees and shrubs, since injury may result.
- Do not apply to newly seeded lawn grasses until well established. Seed can be sown 3 to 4 weeks after application.
- Do not spray when air temperatures exceed 85°F.
- After using this product, clean sprayer with soap or detergent and water, and rinse thoroughly before applying other pesticides.

 Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. Do not apply when windy. To prevent product run-off, do not over water the treated area(s) to the point of run-off or apply when raining or when rain is expected that day. Rinse applicator over lawn area only.

· Failure to follow above precautions may result in injury.

PRODUCT INFORMATION

Fertielome® Weed Out Lawn Weed Killer controls troublesome common Lawn Weeds, including Poison Ivy, in both Northern and Southern Grasses.

WHEN TO USE

Spray at any time when weeds are growing. For best results, apply in spring when weeds are small and growing rapidly. Apply in fall to remove late germinating weeds.

BROADCAST TREATMENTS

Limitations on broadcast applications to residential turfgrass: The maximum application rate is 4 fl. oz. of product per 1,000 sq. ft. per application. The maximum number of broadcast applications is limited to 2 per year with a minimum of 30 days between applications. The maximum seasonal rate is 8 fl. oz. of product per 1,000 sq. ft.

BROADCAST TREATMENTS WITH HOSE-END SPRAYERS WITH DILUTION: Spray preparation for hose-end dilution sprayers: Add the required amount of ferti=Iome® Weed-Out Lawn Weed Killer and fill sprayer with water to proper level. Spray uniformly.
