HOW TO USE **SPRAY & PLAY!**[™]

Read full label prior to use; use as directed. Higher rates of concentrate enhance results.

Begin treating when insects first appear. For active pest problems, apply twice in 2-10 days to eliminate full pest life cycle. Applications should be repeated as needed to maintain control. Remember, thorough coverage is important. Year-round use enhances results. Reapply after heavy rain.

FOR LAWNS & LARGER AREAS

DIAL HOSE-END SPRAYER (RECOMMENDED) Set sprayer lid to 1 TBS and fill spray container with concentrate only. To treat 5,000 sq ft, add 8 fl oz of concentrate. To treat 1,000 sq ft, add 2 fl oz of concentrate. Attach hose end to sprayer lid. Attach lid to container.

PRE-MIX HOSE-END SPRAYER Add concentrate to sprayer container. To cover 5,000 sq ft, add 8 fl oz of concentrate and warm water to 20 gallon fill line. For 1,000 sq ft, add 2 fl oz of concentrate and warm water to 5 gallon fill line. Attach hose end to sprayer lid. Attach lid to container. Shake until mixture is white.

HOW TO APPLY

With your sprayer attached to your hose and water faucet on, begin applying by facing your home and spray the bottom 2 feet or higher. Continue into the yard, spraying any trees as high as possible, and work your way backwards to the property line. Walk at a steady pace and use a sweeping motion, slightly overlapping treated areas. Complete coverage is important, especially in shaded areas. For ants, soak mounds and repeat as needed to establish control below ground. For mosquitoes, repeat as needed to enjoy outdoors.

FOR HOME PERIMETER TREATMENTS & SMALLER AREAS

COMPRESSION SPRAYER Mix 4 fl oz of concentrate per gallon of water to cover up to 1,000 sq ft. For perimeter, apply to bottom 2 ft of structure and 3 ft of ground around foundation to keep pests away.

FOR MOSQUITO CONTROL

FOGGER Mix 4 fl oz of concentrate per gallon of water. Thoroughly fog potted plants, shrubs, landscape & lawn surrounding the area you wish to occupy. Allow fog to penetrate foliage.

MISTING SYSTEMS Mix 16 - 25 fl oz of concentrate to 50 gal of water.

FOR LAUNDRY For bedding, clothing & linens, use 2 fl oz per load with laundry soap.

OUR STORY

When you love someone, you do everything in your power to protect them. I thought I was keeping my family safe by using common pest control to protect our home and lawn. But when my dog Luna became ill, I knew there had to be a better way.

I founded Wondercide to protect pets, families, and homes without harsh chemicals. Today, our natural products protect packs of every kind, everywhere.

Stephanie & Luna 

PRECAUTIONARY STATEMENTS In case of eye contact, flush with water. May cause phytotoxic burn to plant life if applied in temperatures over 90 °F / 32 °C or in full sun with high temperatures. Not for aquatic environments.

COMPLETE SYSTEM Use with Wondercide Indoor Pest Control for total pest protection.

STORAGE & DISPOSAL Store in a cool, dry place away from direct sunlight. When empty, please recycle.
